

Remarks

This amendment to the application is being made in order to update the specification to include a cross-reference to International Application Number PCT/US01/06287; filed February 28, 2001.

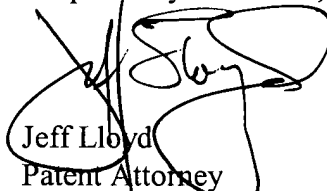

In addition, in response to the Notice of Omitted Item(s) in a Nonprovisional Application mailed November 26, 2003, Applicants hereby confirm that a copy of Figure 5 was inadvertently not included with the continuation application papers filed September 25, 2003. However, the Cross-Reference to a Related Application section of the specification (page 1, first paragraph), refers to the original application and states

“which is hereby incorporated by reference herein in its entirety including any **figures**, tables, nucleic acid sequences, amino acid sequences, or **drawings**.”

Therefore, Applicant respectfully submits that because Figure 5 was part of the original specification as filed, it is not new matter and a copy of Figure 5 should therefore be added to the subject application.

The Commissioner is hereby authorized to charge any fees under 37 CFR §§1.16, or 1.17, or 1.492 as required by this paper to Deposit Account 19-0065.

Respectfully submitted,
